the Parliamentary Tangle in the House.

New Jersey Bridge Veto Referred to a Committee.

WASHINGTON, Jan. 23 .- At the opening of the session of the House this morning, on motion of Mr. Wise, the President's veto of the New York and New Jersey Bridge bill was referred to the Committee on Interstate and For-

A few minutes later, when the House went into Committee of the Whole to resume the consideration of the Tariff the peculiar complication that had arisen owing to the fallure of the Committee vesterday to complete the consideration of the sugar schedule.

This schedule came over as unfinished business, while, by special arrangement made last Saturday, to-day was set aside for the consideration of the coal and iron ore schedules.

Some discussion followed as to th

parliamentary status, and it was finally decided by unanimous consent to go ahead with the vote on the sugar sched-ule and after that was dosposed of to ule and after that was dosposed of to take up coal and Iron.

The pending question was the Robertson amendment, imposing a duty on raw sugar and increasing the duty on refined sugar, as amended by the amendment of Mr. Warner, placing both raw and refined sugar on the free list. The confusion entailed by these two incongruous amendments had first to be straightened out.

amendments had first to be straightened out.

Mr. Dingley claimed that the Warner
amendment was utterly inconsistent with
the Robertson amendment, and should
be considered as a substitute. Mr. Robertson took issue with him, maintaining
that the effect of Mr. Warner's amendment simply was to place refined sugar
on the free list, leaving so much of his
amendment as imposed, a duty upon
sugar below 16 Dutch standard unaffected.

Finally the Warner amendment, as a

fected. Finally the Warner amendment, as a substitute, to place all sugar, raw and refined, on the free list, was carried, 161 ayes to 35 nays.

The coal schedule was then taken up. The first amendment was made by Mr. Oates (Dem., Ala.) as follows:

Carles (Dem., Ala.) As follows: Sgrike out of the free list coal, &c. and theori: Coal, bituminous and shale, 40 cents per ten of 25 bushels, 80 pounds to the bushel (1.5.17) coal slack or cuint, such as will past through a half inch screen, 20 cents per ten of 25 bushels, 10 pounds to the bushel.

ment striking out 40 cents and inserting by cents.

Mr. McKaig (Dem., Md.) then offered a substitute, providing for a duty of 75 cents per ton on bituminous coal, 30 cents on coal slack or culm, and striking bituminous coal from the free list.

Mr. Hitt, (Rep., III.) offered an amendment to the substitute as follows:
Insert at end of coal paragraph: Provided that if any article on the free int is imported, the product of any country which imposes a duty on said articles exported from the United States, then it shall be levied, collected and paid upon said imported article the rate of duty existing prior to the passage of this act.

Mr. Wilson made the point of order

Mr. Wilson made the point of order that Mr. Hitt's reciprocity amendment was not germane, and therefore not in order It was a necessarily service. was not germane, and therefore not in order. It was a proposition for general reciprocity on the whole Tariff bill, or rather retaliation upon ourselves for the follies of other people.

The Chair sustained the point of order and Mr. Hitt modified the amendment so as to restrict it to articles on the free list.

Mr. Burrows (Rep., Mich.) made the point that as modified the amendment was not germane, and the Chair also sustained the point of order.

Mr. McKaig (Dem., Md.) was first recognized to support his substitute.

ALBANY, Jan. 23.—As soon as the gavel fell in the State Senate this morning the Hawaiian resolutions adopted by the Assembly last night were handed down as a message from the lower House.

Mr. Cantor asked that the resolutions be sent to a committee. He thought it not consistent for the Legislature to take a hand in the affairs of the nation. Senator Saxton thought it was perfectly right for the Senate to take a hand, and Senator O'Connor said that Mr. Cantor had often voted on such cheesing the protection of our laws and the advantages the clips affords as a mart trade, grow rich, questions. The resolutions were adopted. The resolutions against the Wilson bill also came over, and Senators Saxton and Cantor agreed to discuss them Thursday morning. year the increase in the number

This year the increase in the number of "foreign corporations" is over six hundred, but under the decision of the Court of Appeals they will be taxed to the full extent.

President Barker said that he could not approximate the amount the city would gain by the decision, but it would aggregate millions within a few years.

In 1891 the foreign corporations paid taxes on only \$5,137,075; in 1892 Mr. Barker added \$4,800,000, and in 1883 nearly \$4,000,000, making the assessments of foreign corporations \$13,750,978, on which \$250,000 is collected.

With an increase of 600 corporations

corporations \$13,750,878, on which \$250,000 is collected.
With an increase of 600 corporations and a full assessment of values on all the assessment will probably be nearer \$50,000,000 this year, or an increase in taxes from this source alone of \$750,000.
The same question at issue in the Thurber-Whyland suit is involved in the case of W. J. Sloane, the carpet dealers, who, as a foreign corporation, claim exemption from taxes from the same question of their bills receivable. It also settes finally the matter in regard to the laxable property of foreign corporations, of whom there are between five thousand and ten thousand in this city.
Corporation Counsel Clark and President Barker were jubilant over the result. President Barker said:
"I cannot say more on the subject than I did in a report a year ago, to which I refer you."
This is what Mr. Barker then said:
"Foreign corporations organize with the avowed purples of escaping our tax.

The Club presented an affidavit signed by Sheriff Broward, declaring that he would take charge of the arena unless restrained. The Club's counsel declared that the State was simply playing a sharp trick in seeking delay, and finally got the promise that a decision would surely be handed down to-morrow.

A little later the Duvai Club thought better of its refusal of the temporary in junction offered by Judge Call, and at 12 o'clock the Club's lawyers again appeared in court and asked the Judge to grant the writ.

He was obliging, and a writ was is sued returnable at 10 o'clock to-morrow morning, restraining the Sheriff from touching the property of or interfering with the Duval Athletic Club.

It is now said that if the Circuit Court decides in favor of the Club and grants a permanent injunction the fight may be postponed until Saturday.

It is reported this morning that Mitchell is already in Jacksonville. Two of
his trunks arrived in St. Augustine last
evening, and Mitchell himself, it is said,
came over at 4 o'clock. His whereabouts
are unknown. In all probability he is
resting quietly at one of the hig hotels.

Billy Thompson, Bat Masterson, Ike

all insist that the meeting will take
place in the arena at Jacksonville, but
this seems to be doubtful, even though
work is going steadily forward.

In speaking of the outcome of the
